

DAILY NEVADA STATE JOURNAL.

VOL. LVII.

RENO, NEVADA, FRIDAY MORNING, NOVEMBER 8, 1901.

NO. 34.

WILL BUILD AN ORE SAMPLER

A Smelter Man Wants to Purchase Ores in Reno.

George W. Clinton, a practical smelter constructor and operator of Salt Lake City, has arrived in Reno with the intention of making this town his place of residence.

He proposes to erect a sampling works and purchase ore in lots from 500 pounds up, and thus give prospectors and mine owners an opportunity to grub stake themselves.

At first he will ship the ore in car-load lots to either Selby or Salt Lake and in the meantime will tabulate his analyses in order to arrive at a conclusion as to whether it is possible to obtain an admixture of local ores that will be sufficiently self-fluxing to justify the erection of a reduction works here.

Mr. Clinton has had considerable experience in constructive work. He built a smelter at Culican, Sonora, Mex., for J. Almada, vice-Governor of that State. It is now in successful operation. He installed a smelter of 40-tons capacity at San Bernardino, California, that netted \$110,000 in the first twelve months.

He also erected a plant at Alameda Point, California, early this year. The owners of the concern are now on the market for ore.

Mr. Clinton will establish in conjunction with his sampler an assay office, and analytical laboratory and will do customs work.

The sampler will be an automatic one and will be in operation within the next six weeks.

Mr. Clinton will also investigate the feasibility of erecting a blast furnace in this city to utilize the product of the Ritter iron mine.

He said to a Journal representative: "I came to Reno three months ago to install for Judge Haydon a 30-ton Vulcan Smelter at his Bullion mine, and depart on the completion of this work.

But the outlook in Reno and vicinity is so favorable that I changed my plans and now intend to make this city my home. It seems to me that with the installation of a diamond drill with 2000 feet sinking capacity, that

bodies of ore can be intersected that will arouse the interest of the mining world.

Since the Wedekind, Tonopah, Steamboat Springs and Verdi propositions have been encountered and are being developed, it seems to me that the population of this section will be greatly increased and that the prospect for finding a home market for these ores in small quantities will be so encouraged that it will increase the output of ore in this country infinitely.

John Sparks Interviewed.

John Sparks of Reno, Nev., left last evening for home, after a brief visit enroute from the Kansas City stock show.

Mr. Sparks is going home a prize winner, and is preparing to exhibit at the big stock show in Chicago next month.

"I have captured first and class prize on a two-year-old steer," he said upon leaving. "The animal, a Hereford, weighed 2,010 pounds. I will show him at Chicago also. Stock like that, if it will dress 65 per cent, is the kind to raise and that is the variety we are trying to turn out in Nevada, with the result that Nevada beef commands the most ready sale. I raise shorthorns, too, but I think the Hereford the very quickest beef developer in the world and the best paying stock."—Salt Lake Herald.

Bal Masque by the Monumental Hose Co.

The grand masque ball to be given Thanksgiving evening by Monumental Hose Company, No. 6, promises to be the season's event in the social line. It will be held in the new Flanagan building on East Fourth street.

In a few days the prizes will be on exhibition in the windows of R. Herz & Brother, and the Golden Jewelry Company.

A costumer will be up from the city. There will be free transportation to the hall.

Mr. Stoddard Returns.

Carl Stoddard has returned to Reno after an absence of six months in the southern and eastern portions of the State, where he was engaged in examining and reporting upon mines. Mr. Stoddard will remain in Reno.

SAVE AN EXAMINATION FEE

By going to the Frank Golden Jewelry Store and having your eyes examined free of charge by the only graduate optician in Nevada. Glasses fitted and adjusted in a scientific manner.

MEETING NOTICE.

The Washoe County Miners and Prospectors' Protective Association will meet Saturday evening in the office of the president at 7:30. A full attendance is desired. GEORGE HOLESWORTH, President.

NOTICE.

The public is hereby notified that all signs must conform to the Board of Underwriters' rules as near as possible. The Reno Water, Land and Light Company will refuse to connect up places where these rules are not complied with in the future.

W. L. BECHTEL, Manager.

STATE TAX UNCHANGED

Communication from the Governor of Nevada.

At a meeting of the State Board of Revenue, consisting of the Governor, State Controller and Attorney-General, Governor Sadler in the chair, the State rate of taxation was fixed, as provided in Section 7 of "An Act to provide for a more uniform valuation and assessment of property in this State," at eighty cents on each one hundred dollars of taxable property.

After the statements of the several County Auditors were received by the State Controller the total valuation for the State was ascertained to be \$28,104,196.57. This amount is considerably less than was expected at the time of the passage of the Revenue Act referred to, and by which anticipated increase of valuation the rate for State purposes was reduced from one dollar to eighty cents on each one hundred dollars of valuation.

The total valuation of property for assessment purposes in the year 1900 was \$24,180,856.77. At a one-dollar rate the State proportion amounted to the sum of \$241,308.86. The valuation for the year 1901 at an eighty-cent rate will produce \$224,833.57, a reduction of \$16,975.28 in revenue from this source.

It is the opinion of the Board that the State Government, by strict economical management, can be conducted for this, or even less, amount; but in view of litigation now pending which involves the validity of the law, together with evident complications that would arise in adjusting accounts between counties and State, and between Tax Receivers and taxpayers, owing to the advanced stage of collection, it has been deemed inexpedient to further reduce the rate at this time.

An itemized statement concerning taxation in this State will be issued as soon as complete data can be obtained.

REINHOLD SADLER, Chairman.

Program of the Century Club.

Following is the program of the Twentieth Century Club for this afternoon:

Instrumental solo Agnes Gibson
Current Events Mrs. O. H. Mack
Vocal solo Francis Graham
"Effect of Club Life Upon the Home," Mrs. M. T. Shaw.

Vocal solo George Ward

Physical exercises Mrs. Hershiser

Thanksgiving Proclamation.

In conformity with established custom, and in accordance with religious sentiment, I hereby proclaim and designate Thursday, the 28th day of November, 1901, as Thanksgiving Day, and earnestly recommend the observance of said day in the spirit and intention of the Fathers who in piety set the worthy example of public acknowledgement of God's gracious mercies and divine care.

By remembering the poor and needy

Winfield Elliott of Winnemucca, who

recently returned from Nome, passed

through Reno yesterday on his way to Tonopah, where he will look over the mining situation.

Mr. Elliott is a partner of Morton

Pratt of this city. They own some

valuable beach claims near Nome. Last

season they made a big clean up but

this year on account of the water short-

age they did not do so well.

Mr. Pratt will spend the winter

in the north. Mr. Elliott will return

to Nome in the spring.

Cyanide Workers

with gifts to cheer and comfort, one object of the day will be accomplished. By social intercourse and friendly greeting our relations with each other may become more pleasant and lasting, and by the manifestation of sincere gratitude to God for His loving kindness our lives may be better and more deserving. Let the day be observed according to the inclination of each person for the accomplishment of good, and the result will be beneficial to all.

In witness whereof, I have hereunto set my hand and caused the Great Seal of the State of Nevada to be affixed, at the Capitol, in Carson City, this 4th day of November, 1901.

REINHOLD SADLER,
Governor.

TERSE AND TO THE POINT

Little Bits of Items, but Still Worthy of Mention.

Nine carloads of cattle were shipped from this point yesterday.

Actual boring operations have been begun in the Elko oil fields.

The swing train leaves for Truckee at 8:15 under the new schedule.

Light northerly wind, shifting to southerly, is the weather prognostication for today.

It is the opinion of the Board that the State Government, by strict economical management, can be conducted for this, or even less, amount; but in view of litigation now pending which involves the validity of the law, together with evident complications that would arise in adjusting accounts between counties and State, and between Tax Receivers and taxpayers, owing to the advanced stage of collection, it has been deemed inexpedient to further reduce the rate at this time.

The shaft in the Union Claim in Peavine District is being steadily sunk. Assays give the owners great encouragement.

Sunbonnet babies and Overall boys, twenty and twenty-five cents. Take one home with you. Porteuse Decorative Company.

Mrs. Phelan and Mrs. St. George have received a large line of winter millinery, which they will open Saturday in The Bandbox store for the inspection of the public.

—

Many Buildings

Are Going up.

Yesterday a reporter of The Journal took a spin around town to note the progress of building operations. On every street there are houses in the course of construction, probably thirty-five being in various stages of completion.

Especially in that portion of the city known as the Orchard is there activity in building. A year or two ago this was a large nursery, but in the meantime streets have been laid out and homes are going up by the dozen. The architectural design is somewhat similar and resembles that of the better class of cottages in the residence cities of California.

SHIPPING AND SUBSIDIES.

JUST about the time the announcement was made that those who were so anxious to have the government go into the business of donating large subsidies to shipping interests which shall embark in foreign trade, J. Pierpont Morgan purchased another line of merchant vessels at a cost of \$5,000,000. Mr. Morgan is not in business for his health and is not liable to engage in an enterprise unless he is pretty well satisfied that there is money in it for him. He is not a sentimentalist and has invariably been successful in his investments, and time enough has elapsed to prove that he made no mistake in his last enterprise. He did not wait for a subsidy. He became satisfied that there was money in the business without such paternalism. He had observed that there were very few vessels in the merchant marine flying the American flag, and that there was no lack of shipping to carry all of the freight without any bonus. Many of the vessels would fly the American flag but for the senseless laws we have which practically forbids it, through the unreasonable conditions which they impose. Foreigners can purchase their vessels wherever they can get them cheapest; man them with the men they regard as the most competent, and they are making money under these opportunities in the American carrying trade. Americans could do the same thing, but ownership under one flag does not permit them to fly the stars and stripes over their own crafts. They must still be registered as foreign vessels, if they are to exercise such freedom and discretion. And this was what Mr. Morgan was satisfied to do.

Under those conditions he invested millions of dollars nearly a year ago, and does not regret having done so. The main argument for the shipping subsidy bounty has been that no one could afford to build American ships and hire American seamen and go into the business, while as a matter of fact our ship builders are successfully competing with foreign builders, from sailing vessels to warships. Mr. Morgan did not wait for the building of vessels or the picking up of new business; he bought existing lines fully equipped, with the good will that was valuable. If the laws were liberal, free from annoying conditions, in adding to these lines he would undoubtedly procure vessels built at American ship yards, as others are doing, on their merits. He evidently does not believe that the business needs bolstering from the national treasury, as his investment of millions plainly shows.

But Mr. Hanna and his associates desire that bounty, and will again urge it at the coming session of Congress even more persistently than at the last. Mr. Morgan's action and its result, ought to prove conclusively that there is sufficient encouragement to ship building in the United States without any government gratuity, leaving the only subsidy argument upon the single plea that it furnishes means for ridding the treasury of some of its troublesome surplus.

SAN FRANCISCO'S MAYOR ELECT.

THE election of Eugene F. Schmitz as Mayor of San Francisco is a scathing rebuke to machine politics, Democratic and Republican, in that city. It shows, moreover, what the workingman can do with the ballot, a lesson which should be instructive in national as well as municipal elections, in the future. Had the laboring classes been as true to their own interests at the last two presidential elections, their cause would have been promoted to a greater extent than could have been accomplished by dozens of successful strikes. Strikes are well enough in their way when there is no other recourse, but intelligent use of the ballot is what counts in removing the necessity for them. We predict that Mr. Schmitz will make an excellent Mayor. He has a liberal education, is clear headed and will not be apt to be influenced by the radicals of the organizations that nominated him. He is comparatively a young man, a native son, and has every incentive to the pursuit of such a course as will entitle him to higher honors in the future.

THE Democrats retain many unpleasant memories of the past, when they have attempted to bring about the defeat of Jones and they have considerable respect for his fighting abilities.—Carson News. The News, evidently, is not posted in the history of Nevada politics. Senator Jones has never encountered any organized opposition in the past, from the Democracy of Nevada. His principal opposition has been in his own party, and the Democrats have generally favored him in preference to other Republicans, because of his supposed fidelity to the silver cause, and the ability with which he advocated it. But bimetallism being "dead," that incentive is dead with it, so far as the Democrats are concerned. Senator Jones worded his own political epitaph in the little sentence, "silver is dead."

THE total popular vote of the United States in 1900 was within a small fraction of 14,000,000, and the total population of the country, including territories which have no vote on the presidency, was 76,000,000. Practically, therefore, there was one

vote cast for each five and a half inhabitants—the cherished formula of statisticians whose appreciation of humor is small—but more properly there were two voters for each eleven inhabitants. In some of the States of the country, especially those of the northwest, the proportion of voters was larger. In Nevada it is about one vote for every four and a half inhabitants, according to the last census and the last election returns.

FOR the benefit of a few of Nevada's wise politicians we desire to say that Hon. C. D. Van Duzer is not the "Jeffersonian" correspondent to the Argus nor is he connected in any manner or way with the publication of the paper. The article published in our last issue was written by a citizen of Reno, and Mr. Van Duzer is not responsible for the appearance of that communication.—Lovelock Argus.

THE treasury surplus is due to over taxation of the people; accumulation of money more than the expense of running the government. It is expended in the purchase of underrate government bonds at a premium for the benefit of the capitalists. Business men sometimes purchase, at a discount, their own notes before they are due, but our Secretary of the Treasury purchases Uncle Sam's future indebtedness at a premium—that is the difference.

GEORGE H. CLARK was re-elected Mayor of Sacramento. The Bee, which made a gallant fight for Tozer yields gracefully to its defeat, from which it finds consolation in the fact that the election at least removes the yoke of the Republican bosses from the necks of the people, who were aroused to action by former admonitions from that paper. William Land was the Republican nominee.

A CALIFORNIA paper says the people of Nevada appear to have United States Senator on the brain. Well, it's about the only place they have to put it, as there will be no room for it until a year from the fourth of next March, in the United States Senate.

The New Vulcan Smelter

A SIMPLE and effective smelting furnace for Gold, Silver, Lead and Copper Ores, manufactured by the VULCAN SMELTING & REFINING COMPANY. Built in units from 6 to 1,000 tons daily capacity. No tuyeres, no blowers, no belting, no shafting. Simple in construction, economical in operation. Send for catalogues and other information

Address 306 Pine Street, San Francisco

No Clew to His Identity Found.

The coroner's inquest over the remains of the man found the other day in Spanish Springs Valley failed to bring to light his identity or the cause of his death. The body had evidently lain there for about a year and nothing but the skeleton remained. The bones had been scattered about, presumably by coyotes. A pistol, pocket knife and tobacco pouch were found, but no letters or other means of identification.

The Female Drummer Was in Evidence.

A crowded house greeted "The Female Drummer" in McKissick's opera house last evening. The play is a bright and snappy one, and was especially edifying to the occupants of the bald-headed row.

The rendition was an excellent one. The brightest feature of the aggregation is the male quartette, which is worthy of the highest praise.

Another of Reno's New Industries.

The Reno Pressed Brick Company has finished burning its first kiln of a quarter of a million brick. They are now ready for delivery and will be sold at the price of common brick. The ad of this company will appear in The Journal tomorrow. This company was but recently formed. Its works on East Sixth street are equipped with modern machinery. The clay bed is quite extensive and of excellent quality.

Correct Location Blanks.

Location blanks, made out in the most convenient form known, and conforming in every respect with the mining laws of Nevada, can be had at The Journal office. Prospectors, or any one intending to locate a claim or two should take a look at these neat and correct notices of location.

A Deserved Promotion.

Colonel Henry A. Bowen yesterday received his commission as Brigadier-General. It was given him by Senator Summerfield and is warranted as genuine. General Bowen will leave for his home in Clairville tomorrow in two special trains. The second will be laden with the title.

No Arrest Made.

No arrests have yet been made as a sequel to the shooting scrape night before last. One of the combatants got two bullets through his clothing. The officers are looking into the case and may have the participants explain matters.

FINE GRAPES, 75c A BOX.

Nine hundred boxes of delicious grapes have just been received and will be disposed of at 75c and \$1 per box.

A carload of fine California wines of all kinds also just received at A. T. DORMIOS, Opp. Passenger Depot.

ONLY TWO LEFT

Of those elegant, fine-toned pianos carried by the Wiley B. Allen Co. They are now on exhibition in the O'Connor Block, Second street. This is the chance of a life-time to secure an elegant instrument at practically your own price and on your own terms. They must be disposed of within the next few days. Call and examine them before purchasing elsewhere, and be convinced that we mean what we say.

T. S. MCKINLEY, Agt.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them.

If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boscob's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store. Get Green's Special Almanac.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

These pianos are all fully guaranteed and have the latest improved action and are the style upright. No one on earth sells better pianos or better-toned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street. C. J. Brookins' store.

The State Board of Revenue has held a meeting regarding the reduction of the State rate. No decision has been rendered, as the Board is awaiting on several counties for returns of assessed value. The Carson Appeal is officially informed that no reduction in the State rate will be made.

Building and Loan Talk No. 10.

We are offering you three different plans whereby you may invest your surplus money with the "Phoenix," no matter whether your amounts are large or small. To those who have 100 or more dollars on hand up to \$10,000, we present the very best interest producing proposition. That is to say, you can buy as few or as many of our one hundred dollar certificates as you like. These certificates are fully paid, and the holder is entitled to receive 6 per cent annual interest, payable semi-annually on the 20th of January and July of each year in lieu of other profits. No membership fee is charged. After one year such certificates may be withdrawn, and on withdrawal the shareholder shall be entitled to receive the total amount paid in. It is well to make note right here that this proposition is not a permanent one. The sale of the certificates is liable to stop at any time. We desire every community to be fully represented and where that is done the opportunity of indefinite purchase or permanent sale may be lost. Therefore, if you wish to handle any of them, do not be bashful but come right along and you shall be accommodated. The business methods of the "Phoenix" are being favorably commented on in this city, and we see complete success ahead in this community. In tomorrow's issue you will be told about other investment plans.

Note our strong list of head officers: A. A. Watkins (Vice-President of W. W. Montague & Co., and President of San Francisco Board of Trade) President.

Charles R. Bishop (Vice-President Bank of California), Vice-President. S. Prentiss Smith (Director Bank of D. O. Mills & Co., Sacramento), Treasurer

Clarence Grange (Late Building & Loan Commissioner Montana), Secretary.

For further information see T. W. Griffin, Field Manager, or assistants at Riverside Hotel.

Reno payments may be made to the Washoe County Bank.

Phoenix Savings, Building and Loan Association, San Francisco, Cal.

SEEDS! SEEDS!

In order to facilitate the delivery of seeds, Mr. Newlands requests all those desiring a quota of seeds next spring, to send in their applications at the present time, thus assuring an earlier delivery than would otherwise be possible. Address all applications to Francis G. Newlands, House of Representatives, Washington, D. C.

DISSOLUTION OF PARTNERSHIP.

The co-partnership heretofore existing between Jos. H. Bremley, C. Unacke and E. L. Wilson, proprietors of the Owl saloon, Reno Nevada, has been this day dissolved by mutual consent. Mr. Wilson retires and Mears, Bremley and Unacke will hereafter carry on the business of the Owl under the firm name of Bremley & Unacke. They will collect all accounts due to the firm and pay all bills for which the firm is liable.

JOS. H. BREMLEY,
C. UNACKE,
E. L. WILSON.

Dated this 4th day of November, 1901.
